Assistant Director for Operations

9 May 1952

Chief, FBID

Progress Report for April 1952

ADMINISTRATION

1. Construction of the new field station on [] was begun. Teletype communications with the staff establishing the new bureau was initiated 25 April via ACAP. Five thousand dollars was transferred to the Far East Command to cover the cost of rehabilitation and the contract for the renovation of the Operations Building was awarded to a Japanese contractor for the amount of \$3,450. The [] Post Engineer is supervising the project. The Japanese Logistical Command verbally authorized the procurement of materials and construction of the antenna field. The problem of housing for married personnel is still unresolved. Formal activation of the [] Bureau is planned for 1 June 1952.

2. April progress on the approved construction projects on Okinawa:

- a. Construction of quarters for native personnel and additional storage facilities [] progressed satisfactorily.
- b. Detailed plans for the BOQ-Club-Shelter will be completed about mid-June and the 20th Air Force has agreed to handle the bids and award of contract promptly to obligate the funds prior to 30 June.
- c. The conversion of the former club quarters into two small family apartments is nearly completed.
- d. Materials for the erection of a fence are being assembled. Labor will be handled by bureau personnel at no cost against the project funds.
- e. Total construction cost for eight typhoon-proof houses was estimated at \$174,700. Funds will be transferred to VOA to cover this construction in the near future. Site plans are being prepared by John M. King of Tokyo and will be completed about mid-May. Six thousand dollars was transferred to the 20th Air Force to cover the cost of the site plan, \$5,000 for the architect's fee, a 10% contingency fund, and a possible \$500 fee to the Air Installations Officer, 20th Air Force.

SECURITY INFORMATION

4. The Operations Officer and the Chief Engineer, FBID, completed an inspection of all field bureaus outside the Washington area. They report that FBID field stations are well staffed, well equipped, and operating efficiently. No major problems were encountered.

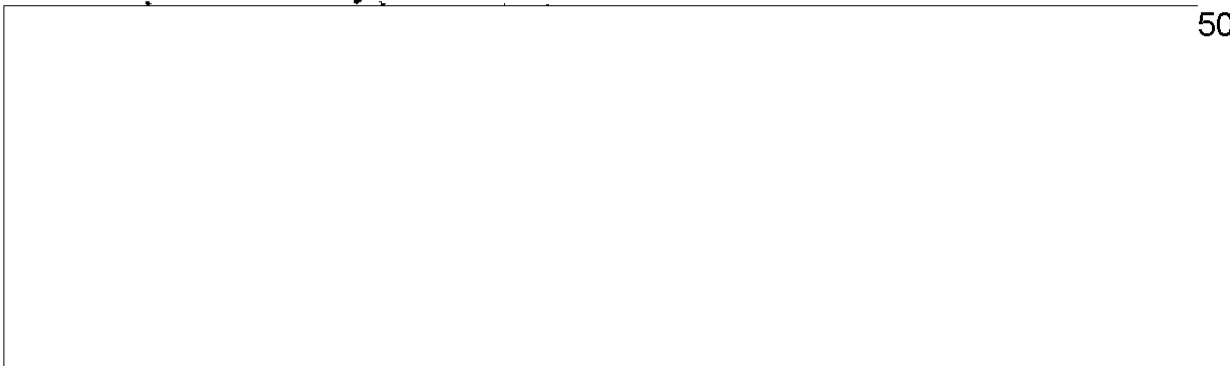

5. Technical personnel of the West Coast Bureau and the Los Angeles Water and Power Department jointly conducted a series of tests to determine whether undue interference would result in the installation of a 138,000 volt power line about 3,000 feet east of the West Coast Bureau. The results of these tests were forwarded through the AD/O to the Office of Communications for analysis. The problem was turned over by the Los Angeles authorities to Jansky and Bailey, one of the foremost engineering consulting firms in the U.S., to determine whether undue interference can be expected.

6. Graphics Register, OGD, is procuring an aerial photograph of the [redacted] area for the purpose of preparing for any eventual hearing regarding the permit for a motorcycle racetrack near the East Coast Bureau in the name of the D.C. Ramblers' Motorcycle Club. 50X1

7. Arrangements have been made with the Office of Communications to obtain a special Russian radioteletype printer which will be constructed by the Armed Forces Security Agency for the use of the Mediterranean Bureau in covering a new Moscow press circuit which cannot be printed with standard Russian radioteletype equipment.

8. The Flexewriter was installed and the first FBID coverage report produced by this method will be released 1 June and monthly thereafter. Also a revised list will be issued in the middle of each month.

9. FBID studied the problem of disassociation from covert activities abroad. Present plans call for:

10. A survey to determine consumer reaction to all products of FBID, excepting the B-Wire and technical publications, is in progress.

11. It is expected that the remaining \$60,000 for FBID stockpiling of technical items will be obligated prior to the end of the current fiscal year. The Chief Engineer delayed the ordering of these items until he had had the opportunity to evaluate the material status at FBID installations.

SECURITY INFORMATION

12. The wage scale for the Holdwide Bureau has been approved. The position of Asst. Chief Engineer, FBID, has also been approved. [redacted] has been assigned to the position.

50X1
50X1OPERATIONS

13. Upon termination of the Japanese occupation, the Japanese Ministry of Communications has withdrawn its supplementary monitoring intercept support. This support, which had been provided gratuitously since 1947, consisted of relaying via land line from the Komuro receiving station certain broadcasts which were difficult for the Tokyo Bureau to intercept directly. Since the important segment of this coverage has been transferred to Okinawa, no effort will be made toward negotiating reinstatement of this service.

14. During the month the regular transmission of traffic from the Saigon Bureau was changed from Tokyo relay to routing via Manila. This should result in more rapid receipt of this material in Washington.

15. The Chief of the Okinawa Bureau completed a recruiting trip to Taipei and Hong Kong during which Chinese monitoring candidates were employed to bring the bureau staff to full T/O strength. The outlook for Mongolian-Turkic language replacement prospects is poor.

16. With the shifting of Pyongyang coverage from Tokyo to Okinawa, the servicing of C-2, Eighth Army, with a copy of the daily Pyongyang file was taken over by the Okinawa Bureau.

17. Sample recordings of Radio Volga broadcasts were made by the German Bureau for the Defection Reception Center in Germany by using signals received in Berlin and transmitted to the German Bureau by land line. These samples are currently being evaluated by the office concerned.

18. Information Control Section of the 7997 Composite Group of the Frankfurt Military Post is now receiving a copy of the German Bureau's daily file.

SPECIAL REPORTS

19. The following special reports were issued:

"Foreign Radio Reactions to President Truman's Address of 29 March, Number 2," prepared for the White House, 2 April.

"Foreign Radio Reactions to Marshal Stalin's Statement to James Wick," prepared for the White House, 3 April.

"Non-Communist Radio Comment on UN Charter," prepared for the DD(I), 7 April. (Later reproduced as [redacted])

50X1

"Soviet Propaganda on the Moscow International Economic Conference," issued as a Special Supplement to USSR Survey, 9 April.
